### IOC Statement

#### Zika virus

The International Olympic Committee Medical and Scientific Commission released a statement concerning the Zika virus. Since the first reported case in Brazil in May 2015, the Zika virus has infected an estimated 1.5 million people in the country with around 80 percent experiencing no symptoms and the rest experiencing symptoms for just two to seven days.

There has been an increase in the number of babies born with microcephaly in Brazil and authorities are trying to determine if there is a connection.

"With this in mind, the International Olympic Committee (IOC) is closely monitoring the situation with Zika in Brazil. We are also in close communication with the World Health Organisation and the Rio 2016 Organising Committee on this topic," reads the statement issued by the Medical and Scientific Commission, which is chaired by World Archery President Prof Dr Ugur Erdener.

"On its side, Rio 2016 is in regular contact with the Brazilian Ministry of Health and the Municipal Health Department, which are the responsible authorities on health issues in Brazil and in Rio. All parties are taking action to address this topic, and are following developments closely."

The statement also confirms that there is a Games-time plan in place to minimise the impact of the virus and offers current international advice for people visiting areas with Zika.

This includes the use of mosquito bite avoidance measures, advice from local health authorities, additional precautions for pregnant women or individuals planning to become pregnant.

## Court for Arbitration in Sport

### Statement on decision

The Court for Arbitration in Sport issued a decision filed against a suspension recommended by the World Archery Board for Justice and Ethics.

World Archery welcomes the decision of the Court for Arbitration in Sport in Lausanne on the appeal of Polish coach Mr Lach, which was filed against the [decision of the Board of Justice](#) to suspend him as consequence of inappropriate behaviour at an archery competition.

World Archery is extremely satisfied that the Court for Arbitration in Sport confirmed that Mr Lach's behaviour did constitute a violation of the rules of World Archery and of the essential values of fair play and proper behaviour that these rules intend to protect.

Despite a reduction of the length of the initial sanction, Mr Lach remains ineligible to be accredited in any capacity at World Archery events or at events of any Member Association (including the events of the Polish Federation) until 12 June 2016.

## Development

### OS African training camp Rio 2016 preparation

Thirty-three participants from 10 African countries attended the second edition of the World Archery/Olympic Solidarity Training Camp in preparation for the Rio 2016 Olympic Games. Under the expertise of World Archery Development and Education Director Pascal Colmaire and Marja Woortman from Namibia, the training camp gave the opportunity to the participating teams to reach their goals and for most realise their dream.

The delegations were delighted by the programme and the experts noted a significant progress of the level among the participants which shows that the sport is growing.

Gavin Sutherland who won an Olympic spot for Zimbabwe said: "The Zimbabwean team feels that the training camp was not only a blessing but a huge success and has definitely helped us develop our archers skills especially with regards to form, mental training and ability to take home the knowledge learned."
