### Publications

#### **"ARCHERY: ITS THEORY AND PRACTICE"**

Taxus Baccata Books is pleased to announce that the classic work by Horace A. Ford, "Archery: Its Theory and Practice" is back in print. This book is perfect for the archery enthusiast and collector. Although minor improvements have been made in the past 150 years, the book still stands as a triumph "of a practical Work on Archery by a practical archer." Price for this paperback is \$14.95.

Horace A. Ford is known as the greatest target archer of all time. He first picked up the bow in 1845, and a mere four years later won the Grand National Archery Meeting held in the United Kingdom. He proceeded to win an amazing and unmatched, eleven consecutive championships, and a twelfth "comeback" win. His high score (1271 in the Double York Round in 1857) remained archery's high mark for over 70 years.

### Questions & Answers

#### **WHY DON'T WE SEE A LOT OF ARCHERY ON TELEVISION?**

This is a question frequently asked to FITA. Here is Terry Reilly's answer:

"FITA has spent a reasonable percentage of its budget on TV production this year for both the World Indoor and the World Outdoor events.

We have a contract with European Broadcast Union (EBU) to give them a tape (either 1/2 or 1 hour) highlights for each event. No-one pays FITA any fees for these broadcasts. EBU members, which include most European stations, can obtain the footage free.

As yet, FITA does not have a sponsor that will pay for the broadcast time. You, and your fellow countrymen, can assist by continually asking the TV stations to show FITA Archery.

We also need to make our productions more interesting and we will be focusing on producing segments that create more human interest rather than continually showing matches."

### Sportissimo

On Saturday September 13, members of the FITA Office staff joined other International Federations in SPORTISSIMO.

Families from staff working for International Federations, WADA and IOC took part in a fun (and exhausting) day of team games. We were split into various groups so we could meet other people working in and around Lausanne and enjoy a social atmosphere with a little competition.

As you can see, Caroline (behind the girl with the white cap and the sunglasses) is struggling hard with her husband, Laurie (extreme right of photo) in the "tug of war". We can't remember who won and it didn't matter.

The venue was at the UCI (Cycling) "Center of Excellence" at Aigle, about 40 minutes from Lausanne. This is an USD 8 million facility with indoor track, training areas, mountain bike tracks, administration, etc. built in cooperation with Lausanne City and the IOC. Teams from all over the world come here to train. Maybe we could aim for something similar?

### *Judges*

#### **JUDGES AND DOS FOR 2004 CHAMPIONSHIPS**

An email/fax was sent by Caroline Murat on 1<sup>st</sup> October asking the Judges to let us know their availability to officiate as Judges and DOS at the 2004 Championships. The forms are available on our website. The deadline is 15<sup>th</sup> November 2003.

### *World Records*

#### **WORLD RECORDS NOT RECOGNISED**

A number of world records have not been recognised by FITA because the tournaments were not registered as a FITA event in the FITA Calendar. Archers have been then penalised not by FITA but by the organizing committee and/or their Member Association.

Consequently, we are asking Member Associations to cooperate and register the event on the FITA Calendar. Thank you in advance for your cooperation. Archers can check the validity of an event by checking the FITA Calendar.

A number of claims submitted to the FITA Office are delayed because of errors on the scorecards or the results sheets. With such an important process, we ask the organization or person submitting the claim to carefully check the information before sending it to the office. Delays can cause the record not to be recognized if another archer breaks the record soon after.

Please note that all the World Records Claims need to be sent as per Article 5.5, Book 1, FITA Constitution and Rules **no later than 10 days** after the tournament and **according to the format** as found on the website: [http://www.archery.org/world\\_records/world\\_records.htm](http://www.archery.org/world_records/world_records.htm).

### *Member Associations*

Some space is reserved for the Member Associations. Please send your information before the 15th of each month if you will it to be published in the FITA INFO of the current month.

### Online FITA Calendar

#### REMINDER

As you know, FITA now provides a calendar for all Member Associations to enter their FITA Events which qualify for FITA Stars and World Records. The system is designed for all FITA recognized tournaments and replaces the paper or email submission for the registration of tournaments. The system is mandatory for tournament registration for all Member Associations.

The system will only show the registered tournaments for which the National Federations have to pay the registration fee. An invoice will be send to the Member Associations as in the past at the end of the year, but the payment is now made after the tournaments.

Our rules state that an event must be registered at least 30 days before the start of the event. If the event is not on this calendar, a claim will not be recognized.

#### **Advantages for National Federations**

- They can upload their calendar themselves and it will become live immediately (no confirmation from FITA is necessary).
- They make changes themselves.
- They renew their calendar easily by allowing duplication of old events with new dates to accommodate for yearly tournaments.
- This is a planning tool for national teams.

#### **Advantages for archers**

- An up-to-date calendar of all FITA events worldwide
- An assurance that the events they will participate in are recognised by FITA for World Records and performance awards.

#### **Advantages for FITA**

- Easier process for record verification.
- Easier accounting of the tournaments.

Administration logins and passwords have been sent in December 2002 to every Member Association by email and normal mail. Please download the instructions from the FITA Website:

[www.archery.org/calendar/FITA-Cal\\_Instructions.pdf](http://www.archery.org/calendar/FITA-Cal_Instructions.pdf). If you still need some fuller information, please contact Caroline Murat at the FITA office ([cmurat@archery.org](mailto:cmurat@archery.org)).
